DISCLAIMER

These guides are provided for general informational purposes only. They are not medical advice and should not be considered mandatory instructions. Every patient's situation is unique — therefore, we strongly recommend discussing your aftercare routine with your treating physician or specialist before following any regimen.

By offering these guides, our goal is to help you understand how each product can be used as part of your daily routine. Please always follow the professional advice of your doctor.

6 MONTHS FLACON PLUS HAIR SET

Your 6-month schedule

MONTHS	1	2	3	4	5	6
1. Hair Loss Shampoo From the start · 3–4× per week						
2. Ozonized Oil Serum Complex From the start · Daily, in the evening						
3. Hair Vitamin From the start · 2 tablets per day						
4. Ozonized Hair Oil Complex From month 2 · Daily, in the evening						
5. Dermaroller From month 4 · 2× per week, before the serum						
6. ProHair Flacon Serum From month 4 · 2× per week						

Months count from the start of the treatment (or from the day of the hair transplant). The schedule is indicative.

Hair Loss Shampoo

CONTENTS

200 ml × 4

START

From the start

FREQUENCY

3–4× per week

PURPOSE

Cleanses the scalp, helps prevent hair loss, supports new hair growth and balances sebum production.

HOW TO USE

- 1 Apply to wet hair and the scalp.
- 2 Massage gently with the fingertips until it lathers.
- 3 Leave in for 1–2 minutes, then rinse thoroughly.
- 4 Use 3–4 times per week.

IMPORTANT Avoid contact with the eyes.

Ozonized Oil Serum Complex

White packaging

CONTENTS	START	FREQUENCY
30 ml × 1	From the start	Daily, in the evening

PURPOSE

First step of intensive care for the donor area. Supports wound healing, calms inflammation and restores the skin.

HOW TO USE

- 1 Apply once daily to the donor area, preferably in the evening.
- 2 Leave on for 45–60 minutes, then wash out with the shampoo.
- 3 Use daily for at least 1 month.
- 4 Do not apply to unwashed or oily skin.

Hair Vitamin

CONTENTS

120 tablets × 3

START

From the start

FREQUENCY

2 tablets per day

PURPOSE

Supports the hair follicles, improves hair quality and strengthens the scalp.

HOW TO USE

1 Take 2 tablets daily: one in the morning and one in the evening, after a meal.

2 Swallow with water or let dissolve in the mouth.

IMPORTANT Do not exceed the recommended dose unless advised by a doctor.

Ozonized Hair Oil Complex

Black packaging

CONTENTS	START	FREQUENCY
30 ml × 3	From month 2	Daily, in the evening

PURPOSE

Repairs, hydrates and protects the transplanted area. Supports healing and reduces itching.

HOW TO USE

- 1 Start 1 month after the hair transplant.
- 2 Apply a small amount once daily to the transplanted area, preferably in the evening.
- 3 Leave on for 45–60 minutes, then wash out with the shampoo.
- 4 Use all 3 bottles for the best result.

Dermaroller

CONTENTS

1x

START

From month 4

FREQUENCY2x per week, before the serum

PURPOSE

Stimulates blood circulation, improves the absorption of the serum and supports collagen production.

HOW TO USE

- 1 Disinfect the dermaroller before every use.
 - 2 Roll gently over the scalp for a few minutes, in all directions (vertical, horizontal, diagonal).
 - 3 Do not press hard — light pressure is enough.
 - 4 Use immediately before applying the ProHair Serum.
-

IMPORTANT Start using the dermaroller no earlier than 3 months after the hair transplant. Earlier use can damage newly transplanted hair.

ProHair Flacon Serum

CONTENTS

10 ml × 6

START

From month 4

FREQUENCY2× per week

PURPOSE

Helps prevent hair loss, stimulates new hair growth and thickens existing hair.

HOW TO USE

- 1 Always use the dermaroller first (see 5).
 - 2 Apply 2 ml of serum to a clean scalp, twice a week.
 - 3 Massage gently for better absorption.
 - 4 Keep using consistently for a lasting result.
-

Ingredients

1. Hair Loss Shampoo 200 ml

ALLERGENS

Allergy notice: the shampoo contains hydrolysed WHEAT protein and hydrolysed SOY protein, perfume and the preservatives benzyl alcohol and methyl(chloro)isothiazolinone; the ProHair Flacon Serum also contains hydrolysed WHEAT protein. Both hair oils contain sweet ALMOND oil (nuts) and apricot kernel oil. The Oil Serum Complex additionally contains clove bud oil (eugenol) and St. John's wort oil: after applying, avoid intensive exposure of the treated skin to direct sunlight. The Hair Oil Complex additionally contains WHEAT germ oil, tea tree oil, eucalyptus oil and lemon seed oil. The vitamin tablets contain the sweeteners mannitol, xylitol and sucralose. Do not use the products if you have a known allergy to any of the ingredients.
